

Release 2- Burndown chart

As you can see in the Release 2 Burndown chart sprint 3 started off at a slow pace with next to nothing getting done, at this point production was far behind schedule and after a meeting with the clients it became apparent that there is a lot of work that needs to be done for us to reach the goals set by ourselves and the clients. By the end of release two we ended up meeting the requirements set by ourselves and the clients these goals can be seen in the above Burndown chart.
